Missouri Weekly Hay Summary 12/20/18

Much unlike the month of November temperatures over the last two weeks continue to be above average with several days getting very close to the 60 degree mark this past week. Many have said Mother Nature is very confused this year but farmers have also found themselves that way as there combines are still running in some fields as not all grain has been harvested yet. Even more odd is to see hay equipment in the fields and there was more than one report of just that this week. This spurred a lot of conversation as it is highly unusual. Aside from the novelty of it and debate about quality it basically comes down to farmers are trying to find a cost feasible way to feed cattle. Although this hay is not the answer high quality horse hay is in very short supply and carrying the highest demand. The supply of hay light to moderate. Hay prices are steady. Hay demand is moderate to good. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales price listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs).

Supreme quality Alfalfa (RFV <185) 180.00-225.00
 small squares 7.00-10.00 per bale
 Premium quality Alfalfa (RFV 170-180) 150.00-200.00
 Good quality Alfalfa (RFV 150-170) 120.00-160.00
